Doctors caring for your birth

Finding out you're pregnant is exciting, and the start of an incredible journey.

At Hamilton Obstetric Centre we understand the importance of family and this change in your life. We aim to offer you the optimum level of care and expertise, to ensure that you feel as comfortable and relaxed as you can throughout your pregnancy and the birth of your new baby.

An obstetrician is a doctor who specialises in caring for your pregnancy and assisting with the birth of your baby. An obstetrician provides peace of mind for you and your family during your pregnancy.

Our specialist doctors will assist with the safe delivery of your baby at Waikato Hospital.

Whether you have a straightforward or complicated pregnancy, many women prefer to have a specialist present during their delivery.

Some of the reasons that a woman may choose to use an obstetrician can include those who have had fertility treatment; have experienced complications in previous births; have previously experienced pregnancy loss; have a known medical problem (such as diabetes, high blood pressure, heart disease and other conditions that may cause issues during their pregnancy); to care for a multiple birth pregnancy; and those who require delivery by caesarean section.

We offer a shared care model. During your time with us, you will be given the opportunity to meet both of our specialists. Together their aim is to provide you with care throughout your pregnancy and labour.

During the course of your pregnancy you will have three appointments with your obstetrician. You will have an Independent Midwife or General Practitioner as your Lead Maternity Carer, with whom we will work closely in monitoring your pregnancy and birth plan, as well as answering any questions you may have.

The cost of our service is \$3,500.00.

If additional consultations are required, the cost is \$90.00 per visit.

You may make an appointment and enrol with Hamilton Obstetric Centre at any stage of your pregnancy. To make an appointment or find out more about our services, please call 07 959 1111, email us on info@hamiltonobstetrics.co.nz or visit us online at www.hamiltonobstetrics.co.nz
