IVF fees

Three clear stages

Our IVF costs are split across three clear stages, and include medication.

Medication included

Cycle preparation stage: Your doctor will select the best medication dosage to suit your needs.

Stages 1+2

All medication to get you through to and including egg collection is included at Stage 1.

Please note: it's possible that you may require additional medication – your medical team will let you know if this applies to you.

Good to know

For a fixed cost package, ask your local clinic team for more information about Fertility Cover® and Family Builder®

Conditions apply.

IVF treatment Stages 1+2+3

We understand that fertility treatment is a significant financial commitment. With this in mind we have simplified our pricing to make it as easy as possible to plan. You will be invoiced at three key stages in your treatment.

1. Medication and monitoring

Stage 1. Payment	
Lite	\$4,370
Mid	\$5,380
High	\$6,560
High Plus	\$7,690

Included

- Standard medications blood tests, scans*, counselling (one session), doctor review if cycle stopped.
- *Scans performed by other providers may incur additional charges. Please check in advance with your clinic team.

Standard medications include:

- Puregon
- Decapeptyl
- Choriomon
- Ganilever
- Elonva
- Orgalutran
- IVF-C
- Follitrope
- Ovidrel
- Cetrotide
- IVF-MHP

Not included

- Non-standard medications as listed below
- Donor addition fee applies for egg or sperm donor treatments
 - please see separate donor fee sheet

Egg donor addition	\$6,990
--------------------	---------

- International resident fees
 - please see consultation section on previous page

Invoice timing

Before collecting first medications

Payment due

Before collecting first medications

Refund if stopped before trigger medication	\$1,495
---	---------

Extra non-standard medications

Set dosage	
Menopur addition	\$225

Variable dosages

- Luvris
- Duphaston
- Crinone (15 days)

Good to know: medication

Your doctor will determine your dose of medication as part of your personalised treatment plan.

- Medications cannot be returned once issued to you
- Cost of prescription medication that is not included in the medication packages above will be additional

2. Egg collection and embryology

Stage 2. Payment	
Base fee	\$8,220

Included

- Standard medications, egg collection, (Ovidrel and Decapeptyl), standard conscious sedation, sperm preparation, embryology, embryo freezing, first 6 months of embryo storage, doctor review if no embryos to use

Not included

Total costs

Treatment + Medication / Stage 1+2+3

Lite \$15,815	Mid \$16,825	High \$18,005	High Plus \$19,135
------------------	-----------------	------------------	-----------------------

Non-IVF treatment

Non IVF treatment costs involve both a set “cost per cycle” plus the variable cost of medication.

OI – ovulation induction

Treatment cost per monitored cycle Using Clomiphene or Letrozole	\$660
Oral medication (provided by external pharmacy)	\$20-\$60
Treatment cost per monitored cycle Using Gonadotrophins	\$1,840
Medication	\$1,000-\$3,000
Fertility Boost Unmonitored OI 4 x cycle package	\$1,030

Included

- Oral medication
- Blood tests
- Pregnancy scan

Not included

Early pregnancy monitoring	\$505
----------------------------	-------

Note: For monitored OI, there is a refund if cycle stopped before first scan \$300

IUI – intrauterine insemination

Treatment cost (per cycle)	\$2,595
Medication	\$0-\$500

Not included

Sperm donor addition	\$1,940
----------------------	---------

Note: There is a refund if cycle stopped before first scan \$2,235. After scan: \$1,935

Invoice timing and payment

- IUI is invoiced on Day 1 of treatment and the account is to be paid prior to insemination;
- Monitored ovulation induction is invoiced on Day 1 of treatment and the account is to be paid prior to scanning;
- Fertility Boost will be invoiced and must be paid in full prior to the issuance of the prescription.

About payment

Consultation

To be paid on the day of appointment.

Pre-treatment and storage

To be paid within 14 days of invoice or before starting a new cycle of treatment, whichever is sooner.

IVF treatment

You will be invoiced at each of the three stages.

Stage 1 Medication and monitoring

Stage 2 Egg collection and embryology

Stage 3 Embryo transfer

For your convenience we have a number of ways in which you can pay for your IVF treatment.

Staged payments

Stage 1 Medication and monitoring is invoiced when your individualised treatment plan is confirmed and must be paid before medication can be issued.

Stage 2 Egg collection and embryology is due to be paid before egg collection.

Stage 3 Embryo transfer is invoiced on the day of transfer and payment is required on the same day.

Pre-payment: pay up-front

You can pay up-front for Stages 1, 2 and 3 as per your estimate. We will refund any overpayment or invoice additional costs at the end of your cycle.

Fertility Cover

Pay a single up-front fee covering up to three cycles of IVF over an 18 month period. If treatment does not result in a live birth after the three cycles, you will receive a 70% refund (terms and conditions apply). Please contact your clinic for further information regarding this option or visit www.fertilitycover.co.nz before starting treatment.

Family Builder

A package of IVF treatment to enable patients to bank euploid embryos. Euploid embryos have a higher chance of leading to a healthy pregnancy.

Fertility Boost

Fertility Boost is a very cost-effective option of four cycles of ovulation induction for those who feel capable of managing their own treatment. There are no refunds for unused cycles if there is an ongoing pregnancy.

Q Card

Q Card is available at Fertility Associates, with interest free terms. Fees, criteria, and terms apply. Please see our website for more information.

Good to know: IVF and IUI

- Donor Addition Treatment also requires a Donor Addition Fee. Please see separate donor fee sheet
- All costs are presented for a single cycle of treatment
- Prices are in NZ dollars and include GST. Prices may be subject to change without further notice
- Payment can be made by cash, direct debit, credit card or Q Card
- The chance of pregnancy is dependent on many factors, as explained in the 'Pathway to a Child' booklet
