From 1 November 2025

A consultation with one of our fertility specialists is the first step to help you form a pathway towards your future fertility plans.

We want you to feel confident that the cost won't unexpectedly exceed your budget, so we offer an all-inclusive price for egg freezing cycles that includes all medication:

First egg freezing cycle – \$14,050

Included

- Egg freezing cycle
- Medication used within the cycle
- Pre-cycle talks with a fertility nurse
- Review consultation with doctor
- Counselling appointment
- Storage for first 6 months

Not included

- Additional treatments outside the egg freezing cycle
- Anaesthetist or interpreter
- First consultation or initial screening
- Embryology and transfer fees are incurred at the time you use your eggs (see below)

We also provide a multicycle option, in case you want a second or third cycle to boost the number of eggs you have stored.

Second Cycle – \$11,235

20% discount

If you start a second cycle within 6 months of your first cycle egg collection.

It includes all the same services as first cycles except egg storage.

Third Cycle – \$9,835

30% discount

If you start a third cycle within 6 months of your second cycle egg collection.

It includes all the same services as first cycles except egg storage.

The timeframe between egg freezing and embryo transfer varies for each patient and is therefore charged separately. You may want to factor in the transfer fee for using your eggs in the future.

If a cycle is stopped prior to egg retrieval there is a fee of \$980 (plus the cost of medications issued).

Egg storage fees

6 months of egg storage (per 6 months)	\$245
12 months of egg storage	\$490
5 years of egg storage (prepaid)	\$1,625
