C O V E R WITH IVF

\$ **70%**
REFUND

Many clinics make promises, but we put ourselves on the line with our Fertility Cover programme. Fertility Associates is the only clinic in Australia and New Zealand to provide this option.

Our Fertility Cover programme gives you three chances to have a baby, with a 70% refund if you are unsuccessful. Over 80% will have a baby with Fertility Cover.*

*Criteria and terms apply. For more information please visit www.fertilitycover.co.nz

RATES

Our commitment to fertility advancements partnered with clinical expertise enables us to achieve some of the highest live birth rates in Australasia.

CARE
SECOND
TO NONE

We are committed to providing personalised patient care through our expert team who support you every step of the way.

About payment

PAYMENT TIMING

Consultation

To be paid on the day of appointment.

Pre-treatment and storage

To be paid within 14 days of invoice.

Non-IVF treatment

Treatment cycles are invoiced on Day 1 of treatment and the account is to be paid prior to insemination (IUI) or scan (Ovulation Induction).

IVF FEES

Three clear stages

Our IVF costs are split across three clear stages, and include medication.

Medication included

Cycle preparation stage: Your doctor will select the best medication dosage to suit your needs.

Stages 1+2

All medication to get you through to and including egg collection is included at Stage 1.

Please note: It's possible that you may require additional medication – your medical team will let you know if this applies to you.

MEDICATION

Your doctor will determine your dose of medication as part of your personalised treatment plan.

Medications cannot be returned once they have been issued to you.

IVF TREATMENT

You will be invoiced at each of the three stages.

For your convenience we have three ways in which you can pay for your IVF treatment.

1. Staged payment

Stage 1. Medication and monitoring is invoiced when your individualised treatment plan is confirmed and must be paid before medication can be issued.

Stage 2. Egg collection and embryology is due to be paid before egg collection.

Stage 3. Embryo transfer is invoiced on the day of transfer and payment is required on the same day.

2. Pre-payment: pay up-front

You can pay up-front for Stages 1, 2 and 3 as per your estimate. We will refund any overpayment or invoice additional costs at the end of your cycle.

3. Fertility Cover

Pay a single up-front fee covering up to three cycles of IVF over an 18 month period. If treatment does not result in a live birth after the three cycles, you will receive a 70% refund.*

*Terms and conditions apply.

Please contact your clinic for further information regarding this option or visit www.fertilitycover.co.nz before starting treatment.

4. Q Card

Q Card is available at Fertility Associates, with interest free terms. Fees, criteria, and terms apply. Please see our website for more information.

PAYMENT NOTES

- Prices are in New Zealand dollars (NZD) and include GST. Prices may be subject to change without further notice.
- Payment can be made by cash, direct debit, credit card, or Q Card.
- The chance of pregnancy is dependent on many factors, as explained in our 'Pathway to a Child' magazine. There is no refund if you do not become pregnant, unless you are paying under our 'Fertility Cover' option (see above).

Consultation and diagnostic tests

CONSULTATIONS

Doctor's consultations

First doctor consultation	\$340
Review consultation	\$225
Non-attendance fee	\$155

This fee applies if the appointment is cancelled within one business day of the scheduled time or is not attended.
