

Egg Freezing Treatment Costs

A consultation with a fertility specialist is the first step to help you form a pathway towards your future fertility plans.

We want you to feel confident that the cost won't unexpectedly exceed your budget, so we offer an all-inclusive price for an egg freezing cycle that includes all medication:

FIRST EGG FREEZING CYCLE – \$9,975

Includes:

- Egg freezing cycle
- Medication used within the cycle
- Pre-cycle talks with a fertility nurse
- Review consultation with a doctor
- Counselling appointment
- Storage for first 6 months.

Excludes:

- Additional treatments outside the egg freezing cycle
- Anaesthetist or interpreter
- First consultation or initial screening
- Embryology and Transfer fees are incurred at the time you use your eggs - see below.

Storage fees:

- 6 months of egg storage – \$150 (per 6 months).
- 10 years of egg storage – \$1,600 (prepaid).

We also provide a multicyle option, in case you want a second or third cycle to boost the number of eggs you have stored:

SECOND CYCLE \$8,190

18% DISCOUNT

If you start a Second Cycle within 3 months of your First Cycle's egg collection.

THIRD CYCLE \$7,140

28% DISCOUNT

If you start a Third Cycle within 3 months of your Second Cycle's egg collection.

The timeframe between egg freezing and embryo transfer varies for each patient and is therefore charged seperately. You may want to factor in the transfer fee for using your eggs in the future:

USING FROZEN EGGS

EMBRYOLOGY

Egg thaw

\$2,815

&

ICSI

\$2,485

EMBRYO TRANSFER

Frozen embryo transfer (includes medication).*

\$2,250

* **Please note:** fees do change over time, so please check the latest fee sheet or website.
